Packed with how-to essentials from leading experts, the HBR Guides provide smart answers to your most pressing work challenges Also available as an ebook set. In his vivid, lively account of how Greek Cypriot villagers coped with a thirty-year displacement, Peter Loizos follows a group of people whom he encountered as prosperous farmers in 1968, yet found as disoriented refugees when revisiting in 1975. By providing a forty year in-depth perspective unusual in the social sciences, this study yields unconventional insights into the deeper meanings of displacement. It focuses on reconstruction of livelihoods, conservation of family, community, social capital, health (both physical and mental), religious and political perceptions. The author argues for a closer collaboration between anthropology and the life sciences, particularly medicine and social epidemiology, but suggests that qualitative life-history data have an important role to play in the understanding of how people cope with collective stress. Online version (Annual Reviews), lists issues for Annual review of nuclear science under succeeding journal title. Annual compilation of critical articles from all areas of the discipline of anthropology. There is a profound crisis in the United States' foster care system, Jill Duerr Berrick writes in this expertly researched, passionately written book. No state has passed the federally mandated Child and Family Service Review; two-thirds of the state systems have faced class-action lawsuits demanding change; and most tellingly, well over half of all children who enter foster care never go home. The field of child welfare has lost its way and is neglecting its fundamental responsibility to the most vulnerable children and families in America. The family stories Berrick weaves throughout the chapters provide a vivid backdrop for her statistics. Amanda, raised in foster care, began having children of her own while still a teen and lost them to the system when she became addicted to drugs. Tracy, brought up by her schizophrenic single mother, gave birth to the first of eight children at age fourteen and saw them all shuffled

through foster care as she dealt drugs and went to prison. Both they and the other individuals that Berrick features spent years without adequate support from social workers or the government before finally achieving a healthier life; many people never do. But despite the clear crisis in child welfare, most calls for reform have focused on unproven prevention methods, not on improving the situation for those already caught in the system. Berrick argues that real child welfare reform will only occur when the centerpiece of child welfare - reunification, permanency, and foster care - is reaffirmed. *Take Me Home* reminds us that children need long-term caregivers who can help them develop and thrive. When troubled parents can't change enough to permit reunification, alternative permanency options must be pursued. And no reform will matter for the hundreds of thousands of children entering foster care each year in America unless their experience of out-of-home care is considerably better than the one many now experience. *Take Me Home* offers prescriptions for policy change and strategies for parents, social workers, and judges struggling with permanency decisions. Readers will come away reinvigorated in their thinking about how to get children to the homes they need.
