John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. All are small, from 20 feet to 32 feet overall, but all have crossed oceans, and all are cheap. Choosing the right boat to take you across an ocean or around the world can be confusing and exasperating, particularly with a tight budget. Vigor sets out to remedy that in this book. He compares the designs and handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners (featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls, sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality. Seeing is Understanding. The first VISUAL guide to marine diesel systems on recreational boats. Wenn nicht jetzt, wann dann? Sönke Roeber und Helmut Adwiraah kennen sich seit der Schulzeit und segeln seitdem miteinander. Nach einigen Jahren Studienzeit und Berufsarbeit beschließen sie, sich mit knapp 30

Jahren, bevor der wirkliche "Ernst des Lebens" beginnt, einen Traum zu erfüllen und einen ganzen Sommer lang die Ostsee zu umrunden. Ihr Törn beginnt in Hamburg, führt entlang der Ostseeküste über Rügen, Hiddensee und Bornholm nach Polen. Ihr geplanter Abstecher nach St. Petersburg wird durch Motordefekt und Bruch im Rigg vereitelt. Nach einigen Schwierigkeiten erreichen sie über die Åland-Inseln und entlang der finnischen Westküste die nördlichste Stadt der Ostsee, Haparanda. Von dort aus unternehmen sie über Land einen Ausflug zum Nordkap, dann geht's an der schwedischen Küste über Stockholm wieder Richtung Süden. Nach der Passage durch den Göta-Kanal richten sie den Bug ihrer HIPPOPOTAMUS nochmals nach Norden, um Oslo und von dort aus die alte Hansestadt Bergen zu besuchen. Nach einer anstrengenden Kreuz im stürmischen Kattegat erreichen sie nach fünf Monaten wieder heimatische Gefilde. Zwei junge Leute, die auf die Erfüllung ihres Traums nicht bis zum Rentenalter warten wollen – dazu gehört in der heutigen Zeit schon eine Menge Mut. Intensiv erlebt und erfrischend locker beschrieben, regt dieser fröhliche und optimistische Reisebericht, gewürzt mit Anekdoten über Land und Leute und gespickt mit seglerischen Tipps, zum Nachmachen an. Explains survival techniques, including self-defense, first aid, and how to acquire essentials like food, water, and shelter. The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally

sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment.
