*Ways of Being Desi Aug 20 2022 How do we define being Desi? We all know what we mean by it but what are the actual sights, scents, sounds and tastes-the myriad elements from the South Asian imagination that come together in various combinations to conjure 'self' for all of us? Because being Desi is no respecter of national boundaries; Desi cultures are truly transnational and cannot be defined by the rupture of Partition or lines on a map. Ziauddin Sardar is a Person of Pakistani Origin-and proud of it-but he boldly says that his identities draw on antecedents from all parts of the subcontinent. From the beauty of Bharatanatyam, to the poetic genius of Amir Khusrau and Faiz; from the universes created by Dilip Kumar and Guru Dutt to the untranslatable, indescribable taste of a perfect golgappa. Ways of Being Desi is a brilliant, provocative and deeply honest exploration of the ingredients that make us who we are. It is not a simple listing of food, films or even the universal importance of 'Aunties' in South Asian culture; it is a meditation on the subcontinent's recent past and all that happens when we decide to forget our shared histories.*

*Desi Land Dec 24 2022 Desi Land is Shalini Shankar's lively ethnographic account of South Asian American teen culture during the Silicon Valley dot-com boom. Shankar focuses on how South Asian Americans, or "Desis," define and manage what it means to be successful in a place brimming with the promise of technology. Between 1999 and 2001 Shankar spent many months "kickin' it" with Desi teenagers at three Silicon Valley high schools, and she has since followed their lives and stories. The diverse high-school students who populate Desi Land are Muslims, Hindus, Christians, and Sikhs, from South Asia and other locations; they include first- to fourth-generation immigrants whose parents' careers vary from assembly-line workers to engineers and CEOs. By analyzing how Desi teens' conceptions and realizations of success are influenced by community values, cultural practices, language use, and material culture, she offers a nuanced portrait of diasporic formations in a transforming urban region. Whether discussing instant messaging or arranged marriages, Desi bling or the pressures of the model minority myth, Shankar foregrounds the teens' voices, perspectives, and stories. She investigates how Desi teens interact with dialogue and songs from Bollywood films as well as how they use their heritage language in ways that inform local meanings of ethnicity while they also connect to a broader South Asian diasporic consciousness. She analyzes how teens negotiate rules about dating and reconcile them with their longer-term desire to become adult members of their communities. In Desi Land Shankar not only shows how Desi teens of different socioeconomic backgrounds are differently able to succeed in Silicon Valley schools and economies but also how such variance affects meanings of race, class, and community for South Asian Americans.*

A Marriage, an Affair, and a Friendship Jul 27 2020 This is a story where Rahul, Paromita, Suroma and Samaresh bisect and intersect boundaries of marriage, affair and friendship, evolving into an intriguing cocktail and mix of human relationship. Sabarna Roy looks at a marriage, an affair, and a friendship in a very in-teresting, and a fast-paced prose and gravitates to the idea of an open marriage in a modernist setting. It is a highly enjoyable read that strikes at our prejudices and regressive thoughts in a subtle and fleeting manner. A must read. True to his style, Sabarna experiments within the format of prose writing inside a single piece of novella. A starkly visual human drama!

Desi Girls Jul 19 2022 Coping with the customs and expectations in the countries where they are now living, the mainly female characters in these tales have to choose whether to cling to their Indian culture, discard it completely, or learn how to adjust and compromise. It's a challenge! Themes of courtship, marriage and betrayal - of losing and re-forming one's identity while trying to live up to Indian ideals of behaviour in an alien environment - contain all the vibrancy of India herself. And amidst the fragrance, colour and beloved familiarity of the rituals that accompany the characters, many varied and sometimes disturbing dramas are played out in these stories by: Va Naidu, Achala Sharma, Anil Prabha Kumar, Anshu Johri, Archana Penuli, Aruna Sabharwal, Chaand Chazelle, Divya Mathur, Ila Prasad, Kadambari Mehra, Neena Paul, Purnima Varman Pushpa Saxena, Shail Agrawal, Sneh Thakore and Sudershen Priyadershini.

Escape Velocity Sep 21 2022 Almost all of you would have been on a bicycle at some point. Sadly, as with most childhood friends with whom we have lost touch, relating to bicycles as an adult can be an awkward challenge. Simply knowing how to ride a bike is not enough. Bicycles have adapted, matured and, for the most part, gotten better with technological developments. Yet we have come across so many unable to relate to this old friend - a machine that admittedly looks like it went through at least two makeovers during the authors' own lifetimes. Other obstacles to developing a new relationship with bikes as an adult can include changes in our own bodies, medical conditions, and mental blocks. This book will address these and other questions and take you a step closer to incorporating cycling in your

life. Additionally, it will help you gain a better understanding of design changes in the modern bicycle, and simplify the process of selecting, riding and maintaining your bicycle. We believe that a lot of great things happen out of the comfort zone. This is especially true in sports, where comfort or the lack of it is very tangible, so to speak. When you exercise or exert yourself, the discomfort is very real: muscle soreness, heavy breathing, sweating, and what have you. Luckily, the results you get from persisting with cycling are also very tangible. We tell you all about the great benefits in this book. We were lucky enough to have mustered the escape velocity it takes to move from our couches and get on the saddle, and we hope to pass to the reader some of that escape velocity to break away from the comfort zone! Having been riders and competitors ourselves and having worked in the cycling industry with some of the biggest brands and pro cyclists and interacted with riders of all ages and sizes, we want to give back to the community. Between the two of us, we have been to the largest bike expos, seen the world's most important races, gone on countless glamorous and not so glamorous bike trips, met inspiring and crazy people, and worked our legs and lungs dry - to come out infinitely richer at the end. This book is a tribute from us to the cycling community at large - a very special group of people from whom we learned valuable life lessons. The book is meant as a handbook or reference for the basic questions a beginner might have about cycling and is divided into three main sections: 'Before Buying Your Bike', 'Before Your First Ride' and 'Becoming A Seasoned Rider'. You may be in any of these phases, so dive in wherever you think best suits your current experience and skill level. Then the book dovetails into a sample 50 km training plan that you can tweak to your needs. We close with the recommendations section, where we have curated a list of books and movies that influenced us the most. Last, but not least, the foreword to *Escape Velocity* is written by a very special young man from the pro cycling world: Victor Campenaerts. Victor is a 27-year-old Belgian pro cyclist. He was the Belgian and European Under-23 road time trial champion in 2013. Since that year, he became the men's time trial champion in the Belgian and European championships twice. On 16 April 2019, at the Aguascalientes Bicentenary Velodrome in Aguascalientes, Mexico, Victor broke the hour record (longest distance cycled in one hour), riding 55.089 km, surpassing Bradley Wiggins' mark of 54.526 km, a record that Wiggins held for nearly 4 years. Hence, at the time of publishing, Victor Campenaerts is the fastest man in the world.

*Hip Hop Desis Apr 23 2020 Hip Hop Desis explores the aesthetics and politics of South Asian American (desi) hip hop artists. Nitasha Tamar Sharma argues that through their lives and lyrics, young "hip hop desis" express a global race consciousness that reflects both their sense of connection with Blacks as racialized minorities in the United States and their diasporic sensibility as part of a global community of South Asians. She emphasizes the role of appropriation and sampling in the ways that hip hop desis craft their identities, create art, and pursue social activism. Some desi artists produce what she calls "ethnic hip hop," incorporating South Asian languages, instruments, and immigrant themes. Through ethnic hip hop, artists, including KB, Sammy, and DeeJay Bella, express "alternative desiness," challenging assumptions about their identities as South Asians, children of immigrants, minorities, and Americans. Hip hop desis also contest and seek to bridge perceived divisions between Blacks and South Asian Americans. By taking up themes considered irrelevant to many Asian Americans, desi performers, such as D'Lo, Chee Malabar of Himalayan Project, and Rawj of Feenom Circle, create a multiracial form of Black popular culture to fight racism and enact social change.*
