Connections Mathematics Jan 01 2021 Connections Stage 4 Blackline Masters is designed for students studying the Stage 4 (Years 7 and 8) course. The blackline masters in this book are generally quite challenging. They provide interesting enrichment activities that will expand students' skills in working mathematically and will help in developing positive attitudes towards mathematics. Technology can be used, where appropriate, to develop further understanding of mathematical concepts. These blackline masters are also useful in assessing learning outcomes; they provide opportunities to work with students and also gives students an interesting way of showing their mathematical skills. Features include: a variety of problem-solving activities associated with the mathematics students are studying practise sheets to revise basic mathematical skills work that involves constructions of and investigations of the properties of basic shapes and solids language exercises to revise words used in the topics a number of grids that are useful for drawing shapes and investigating the properties of shapes answers to most of the blackline master sheets
