Cortman and Shinitzky realized that most people are unaware of 10 crucial psychological truths--truths imperative to maintaining mental health and well-being. As a result of this lack of awareness, people become anxious, depressed, and generally unhappy; if they learn the 10 truths, they are more likely to lead productive, fulfilled lives. Do you know that: Emotions are understandable and contain valuable information? Our behavior has a hidden purpose? We all have an internal saboteur whom we must identify and control? We can change how we act if we change how we think? Time heals nothing? **Your Mind: An Owner's Manual for a Better Life** combines extensive psychological research with decades of clinical practice in a practical, easy-to-digest narrative. **The Millionaire Manual Apr 16 2022 This book  
presents a refreshingly new method for  
coaching the individual on accumulating one  
millon dollars or more in the public markets.  
This uniqueness takes several forms. The first  
of these is the structure of the book itself.  
It is divided into four components. These  
components are Tools, Parts, Assembly and  
Warranty. In other words, it is set up as an  
Owners Manual for the individual. By analogy  
to other Owners Manuals which we have all seen  
and attempted to read, the Tools are generally  
things that are not included with a new item  
that we purchase and are required to assemble.  
We must either already have them or purchase  
them before we can begin the assembly process.**

The Tools section of this book is completely unlike other investment books. A reader can gain more from reading this section of the book than from most full texts on the subject. The Parts and Assembly sections of the book are in reality the how to of making money in the market. Although admittedly of little value without the first section, these areas combine academic theories with practical experience. Art and science are merged with real life examples of how you can make your money work for you. As a reader goes through these pages, his or her mind is transformed into new modes of thought. It is as if a light comes on and it all begins to make sense. The delivery is powerful and enlightening. The book concludes with a warranty section. It is of little value to accumulate assets if you are going to lose them. Insights are given on protecting not only your investment portfolio but other assets as well. There are full chapters on how to protect the home and auto as well as methods of getting maximum income while reducing taxes. The other area of uniqueness is the detail regarding how an investor must react to bull and bear markets and why they must act in a certain way. Making millions in the market is as much about being able to refrain from certain innate problems that we all possess as investors and

converting our natures and subconscious minds in a way that allows us to be successful. Of particular interest are the stories which relate to everything from astro-physics to world history in teaching the reader about the investment world. This moves a rather bland subject from the area of boredom to very interesting reading. A reader will want to read this book again and again and keep it where it can be referred back to. It will be one Owners Manual that will not be locked away in a drawer.

*The Sharing* Nov 30 2020 Presenting fresh and elegant spiritual concepts, Anne L. Smith guides readers through a perceptual paradigm shift into a new way of being that is far

freer and more joyful. She provides an effective tool for change, rather than merely another metaphysical book to read, based on a spiritual rendering of the concepts that inspired quantum physics and string theory. We are taken on a journey to master understanding of how our universe is structured, how we fit into it, and how we can create lives for ourselves that are happier and more fulfilling. Fourth dimensional energy encoded in the precise language and composition of the book facilitates conscious expansion, helping readers make gradual but significant changes in perception. The layout is clear and organized, and included exercises clarify the concepts via real-life scenarios. Everything that exists is part of the sharing, a non-judgmental, unified consciousness that sees all of its divinely connected parts as beautiful and perfect. The ability to see ourselves in this same divine light allows us, as humans, to take responsibility for our lives and become conscious co-creators. Written in the language of the soul rather than the language of the mind, *The Sharing: The Owner's Manual for Being Human* provides a more joyful, carefree, even, and practical way of perceiving life's ups and downs. It will change the way you see life and experience the world---today!
